

Ichthys Project Onshore LNG Facilities Update

Community Bulletin #127 – JKC Australia LNG Pty Ltd

JKC makes a pointe with sponsorship

Dancing is a popular Darwin and Palmerston community pursuit which illustrates the rich diversity of the region in which JKC Australia LNG (JKC) is delivering the Ichthys Project Onshore LNG Facilities.

JKC's Sponsorship Program has identified the Palmerston Association for Dancing as the first of its successful applicants for its 2014 round of contributions.

The sponsorship will assist the Association with its performance of Cinderella on Sunday, in which 150 local dancers, from three-year-olds to adults, will perform alongside international guest principal dancers.

JKC Director John Bramley said the Project was proud to support the organisation, which had contributed to the fabric of the Palmerston and Darwin community for 30 years.

"JKC is very pleased to support this initiative which shares our values," John said.

"The Palmerston Association for Dancing has for three decades been teaching local people about the art of ballet and dancing.

"Our support of the production Cinderella contributes to the cultural life of the Palmerston and Darwin communities, and encourages physical and cultural education."

The Association's Jan Hedenig said this weekend's performance, at the Darwin Entertainment Centre, would present classical ballet to the community, provide an opportunity for local dancers and musicians to perform and be inspired, stimulate and develop artistic talents within the community and foster a sense of community pride.

JKC is a proud sponsor of this weekend's performance of Cinderella by the Palmerston Association for Dancing.

The sponsorship reinforced JKC's commitment to creating strong communities by supporting development projects, including sport, community events and the arts, which improve the quality of life for communities in our sphere of influence.

Park'n'ride Facilities

Park'n'ride facilities are currently operational at:

- Georgina Crescent, Yarrowonga
- Beresford Road, Yarrowonga
- Darwin International Airport
 - Charles Eaton Drive
 - Lancaster Road

Bussing

Please note each bus may be used more than once from different locations

- Twenty six buses daily carrying workers from Darwin and Palmerston to Bladin Point
- Fifty buses daily from Manigurr-ma Village to Bladin Point
- Twenty nine buses daily from Darwin International Airport park'n'ride facilities to Bladin Point
- Twenty nine buses daily from Yarrowonga park'n'ride facilities to Bladin Point

Peak bus times:

Monday to Saturday from 5am to 7am and 4pm to 6pm

Appropriate dust suppression and street sweeping measures are in place at all JKC construction sites. All truck rock loads are covered. Noise, dust and road conditions will continue to be monitored.

JKC is committed to ensuring the safety of the community and our workers

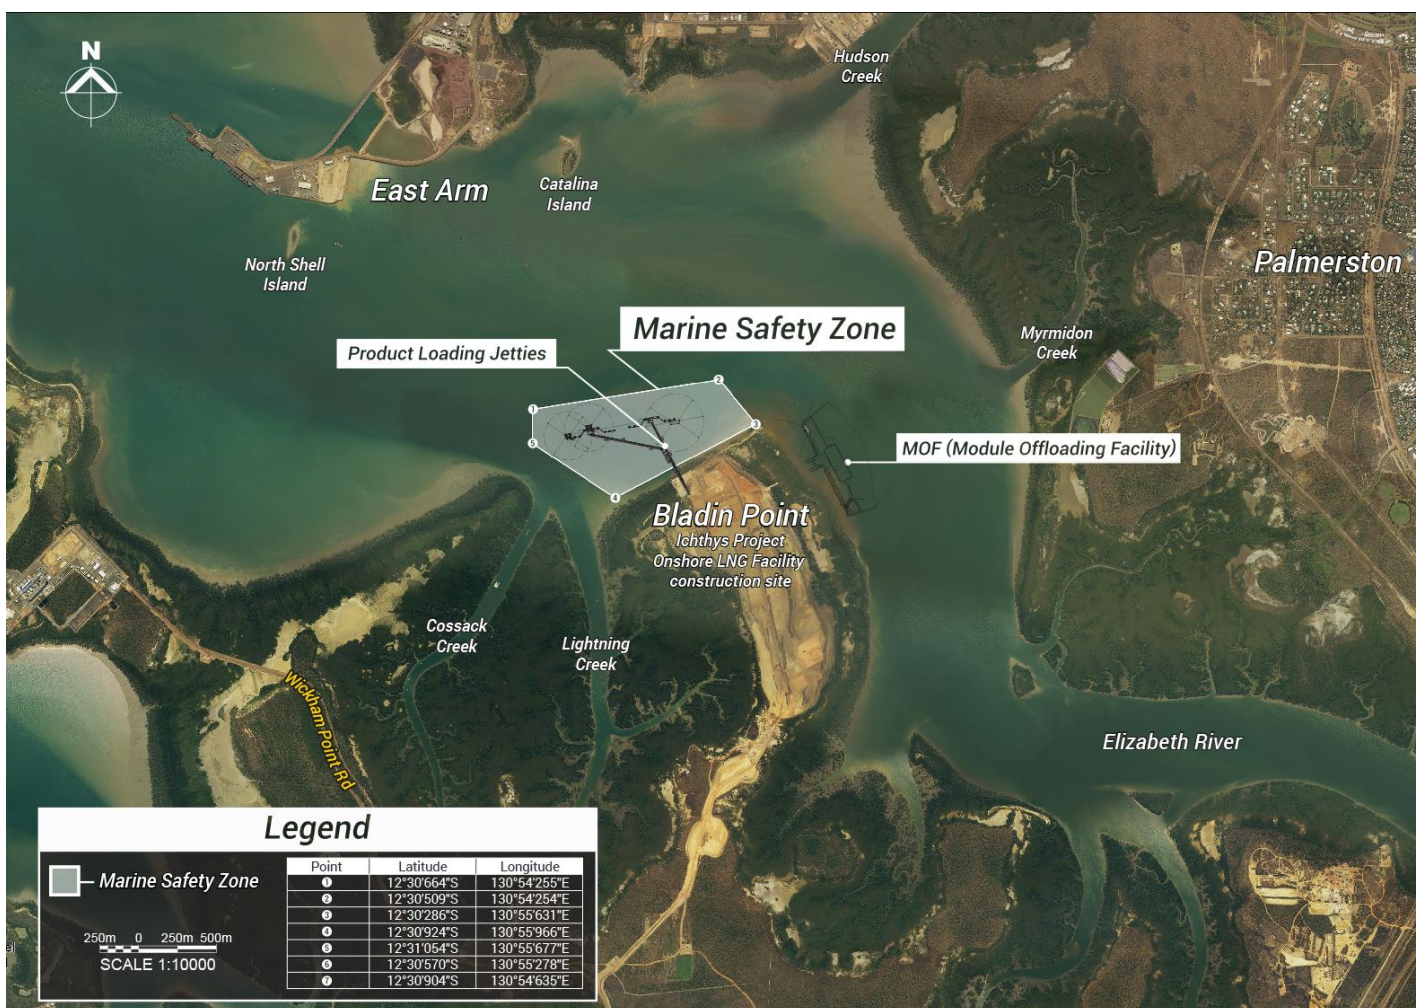

– please help us continue to share our roads safely.

Ichthys Project Onshore LNG Facilities Update

Marine activity – advice to snorkellers, divers, boaties and harbour

Module offloading facility (MOF) and Jetty

- A number of marine vessels are now in Darwin Harbour working near the MOF and on the construction of the jetty near Bladin Point
- The cantilever bridge has recommenced the LPG jetty trestle construction. Please obey the 250 metre marine safety zone
- Production piling is ongoing at the jetty. Accompanying vessels will be in the area
- The MOF is now operational and subject to all marine transport regulations
- Large marine vessels and transport barges with associated tugs will be transiting the area
- These vessels are restricted to operations within the marked channel area and are extremely restricted in their ability to manoeuvre

For up-to-date information on activities in the harbour, please remember to always check the Mariners' Notices at www.darwinport.nt.gov.au, which includes information on hazards and safety zones. Alternatively, you can call the Community Feedback number 1300 724 795 for more information.
