

# Ichthys Project Onshore LNG Facilities Update

## Community Bulletin #149– JKC Australia LNG Pty Ltd

*JKC Environment Advisor Anthony Black was proud to represent the Project at the 34<sup>th</sup> annual Barra Classic at Daly River last weekend.*

## JKC proud partner of community classic

JKC was proud to be a sponsor of the highly anticipated Barra Classic for the second year running. The popular catch and release competition – run by the Darwin Game Fishing Club (DGFC) – is now in its 34<sup>th</sup> year. With the backing of a strong committee and a small army of dedicated volunteers, the competition was this year held from May 13 to 17 on the picturesque Daly River. JKC is committed to contributing to the community in which it operates through legacies and sponsorship of activities or events that have a synergy with Project values including environmental, social and economic outcomes. JKC External Affairs Manager Bruce Franklin said JKC was proud to contribute to the organisation, which enhanced

the social fabric of the Darwin community.

“JKC is very pleased to support this initiative which shares our values,” Bruce said.

“The DGFC, through its members and their commitment to sustainable fishing practices, is doing their part to educate the public about ‘catch and release’ fishing and also about the changes to recreational fishing rules.”

JKC also sponsored this year’s Junior Barra Classic. The DGFC volunteers recently held an evening information session at the Manigurr-ma Village explaining the changes to possession, size and vessel limits to Village residents and also gave some expert advice on how to bag a metery.

### Employment enquiries

## Marine activity – advice to snorkellers, divers, boaties and harbour users

### Module offloading facility (MOF) and Jetty

- A number of marine vessels are now in Darwin Harbour working near the MOF and the jetty near Bladin Point
- Please obey the 250 metre marine safety zone
- Please also check the Mariners' Notices regarding the maritime security zone
- The MOF is now operational and subject to all maritime security regulations
- Large marine vessels and transport barges with associated tugs will be transiting the area
- These vessels are restricted to operations within the marked channel area and are extremely restricted in their ability to manoeuvre

For up-to-date information on activities in the harbour, please remember to always check the Mariners' Notices at [www.darwinport.nt.gov.au](http://www.darwinport.nt.gov.au), which includes information on hazards and safety zones.
