

Ichthys Project Onshore LNG Facilities Update

Community Bulletin #164 – JKC Australia LNG Pty Ltd

South Australian sprintcar driver Darryl Guerin was a welcome visitor to Manigurr-ma Village this week.

Spectacular Sprintcars roll into town

JKC and ESS Larrakia were pleased to welcome a state-of-the-art sprintcar to Manigurr-ma Village this week. The display was timed to help promote the HB Concrete 2015 Australian 360 Sprintcar Championship, which is being held at Darwin's Northline Speedway on Friday 4 and Saturday 5 September.

Village residents were able to take a close look at the car driven by Darryl Guerin, who will be competing this weekend. The car is a purpose built dirt track machine powered by a 360 cubic inch V8 engine and capable of speeds in excess of 160 kilometres per hour.

A variety of other cars and drivers visited the Village to promote the event.

Manigurr-ma Village, located at Howard Springs, is currently home to approximately 2,500 temporary

residents working on the construction of the Ichthys LNG Project.

Residents are encouraged to support and participate in local community events.

"It is fantastic that we have been offered the opportunity to promote our event to the residents of Manigurr-ma," said Dean Summers, President of the Darwin Speedway Riders and Drivers Association.

"The ongoing viability of our sport relies on public attendance and we very much appreciate the support of JKC and the Ichthys LNG Project more broadly."

As part of our ongoing commitment to engaging with the Darwin community, JKC will continue to look for opportunities to link the Project workforce with local businesses and events.

Employment enquiries

To register your interest to work on the Project, go to www.ichthysjobs.com. If you have difficulties online please seek assistance at our Construction Employment Mobilisation Centre (CEMC), 22 Mitchell Street, Darwin, from 10am to 4pm, Monday to Friday, or call 8931 8999.

Talk to us

You can contact our Community Relations team with any Project related inquiries by calling our Community Feedback line on 1300 724 795.

Ichthys Project Onshore LNG Facilities Update

Peak construction: What routes will the buses travel?

JKC's transportation map, including our park'n'ride locations, used by workers living locally, is provided below with the bus routes highlighted in red.

Construction works for the new park'n'ride at Coolalinga have been completed and the facility will be operational in the coming weeks.

JKC is committed to ensuring the safety of the community and our workers – please help us continue to share our roads safely.

Ichthys Project Onshore LNG Facilities Update

This week JKC advises transport to and from our sites for the period 4 – 11 September:

Manigurr-ma Village

- Alarm testing will occur each Tuesday at 4pm

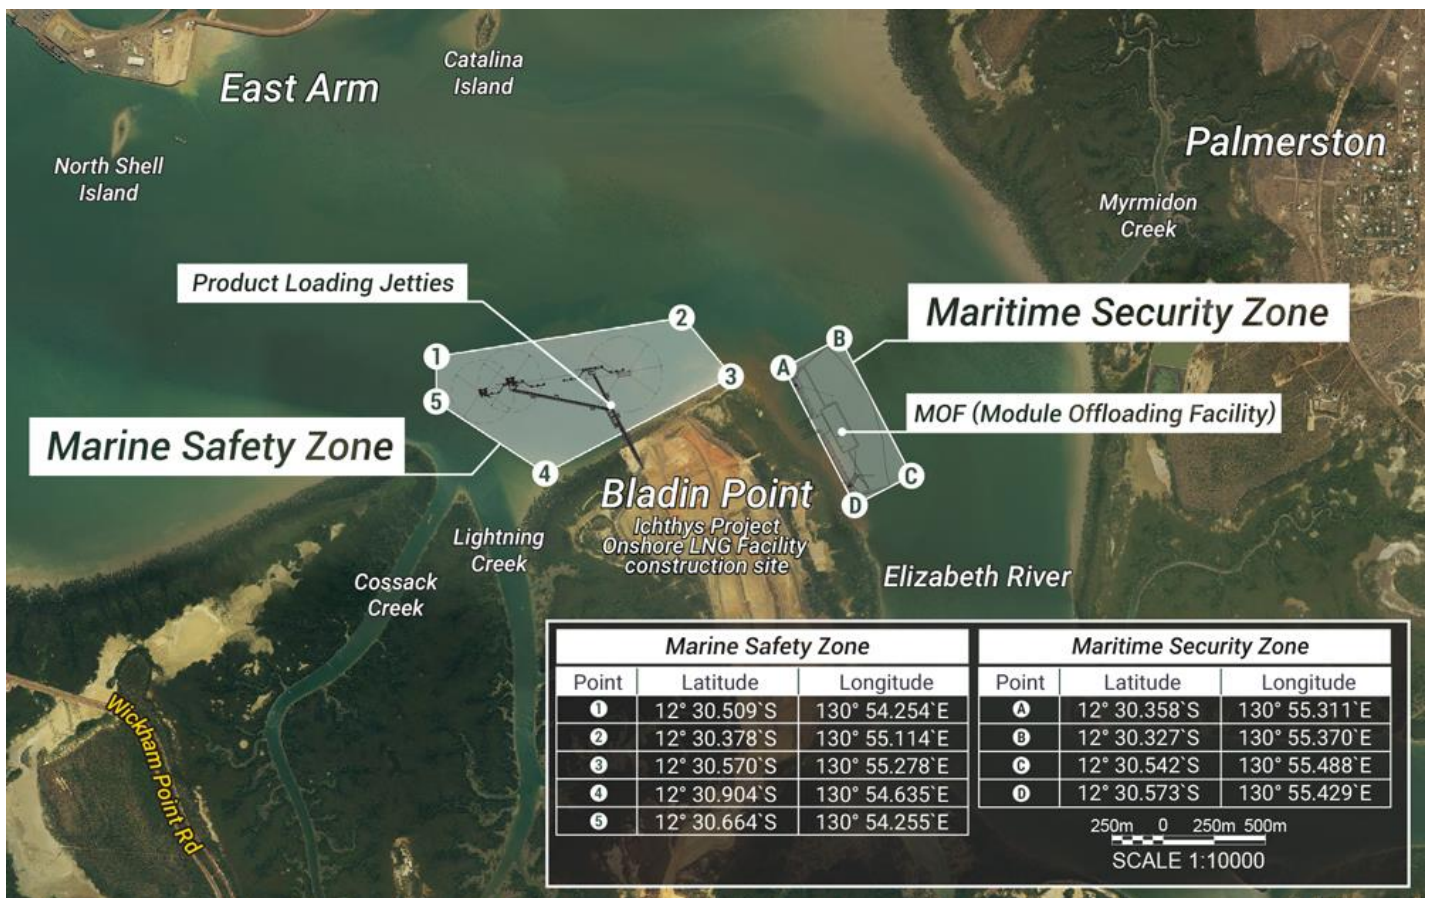

Appropriate dust suppression measures are in place at Bladin Point. All truck rock loads are covered. Noise, dust and road conditions will continue to be monitored.

Ichthys Project Onshore LNG Facilities Update

Marine activity – advice to harbour users

Module Offloading Facility (MOF) and Jetty

- A number of marine vessels are now in Darwin Harbour working near the MOF and the jetty near Bladin Point
- Please obey the 250 metre marine safety zone
- Please also check the Mariners' Notices regarding the maritime security zone
- The MOF is now operational and subject to all maritime security regulations
- Large marine vessels and transport barges with associated tugs will be transiting the area
- These vessels are restricted to operations within the marked channel area and are extremely restricted in their ability to manoeuvre

For up-to-date information on activities in the harbour, please remember to always check the Mariners' Notices at www.darwinport.nt.gov.au, which includes information on hazards and safety zones.
