

## COVID-19 Vaccination Register Compliance Update

Dear Contractors,

I would like to thank you all for the tireless work you have done in support of managing Contractor Personnel Vaccination compliance over the past several months to ensure continuation of our operations and compliance with rapidly changing State and Territory Government Directions.

As the double vaccination mandates have now passed, with ongoing booster compliance now in place, INPEX intends to transition to a simplified model, and discontinue the capture of details at an individual level, trusting that our Contractors have robust systems in place to meet the requirements of the Directions in managing their workforce.

INPEX expects all personnel to comply with State and Territory Government COVID-19 public health directions including in relation to vaccination.

Ichthys contractors employing workers covered by the health directions are responsible for ensuring their workers are compliant with the directions, as updated from time to time.

Contractors are required to comply with the following requirements:

- Ensure that any worker deployed to an INPEX site covered by a vaccination direction is compliant with that direction. Any worker that is not able to comply will not be sent to the INPEX site.
- In sending a worker to an INPEX site covered by a vaccination direction, confirm that Contractors assigned personnel have sighted evidence of individuals current vaccination/exemption status.
- Contractors have instructed relevant personnel to ensure they have the evidence required with them when attending an INPEX site, which must be produced upon request by INPEX.
- If requested by regulatory authorities, Contractor will provide information regarding vaccination/exemption status of the workers on an INPEX site directly to the regulatory authority.

To confirm your acceptance to shift to this new process, we require the attached Declaration to be signed by the **Authorised Contractor Representative** and returned to [health@inpex.com.au](mailto:health@inpex.com.au) after which the submission of individual Contractor Personnel information will cease.

Please ensure you copy your INPEX Contact points in your submission in order for us to monitor the transition.

Many thanks,

**Tracey Jones**  
Category Sourcing Manager
