

# Community Engagement in the Northern Territory

**INPEX**

2023

# A message from Bill Townsend

INPEX Senior Vice President Corporate

## Ichthys LNG: supporting energy security and economic benefits

It was another busy year for INPEX and the Ichthys joint venture in 2023. The safe departure of our 1000th cargo from Ichthys LNG in December 2023 was a proud moment: with each cargo supporting Indo-Pacific energy security, while helping deliver positive outcomes for Northern Territory communities, through jobs, training and social and economic benefits. This milestone would not have been possible without the ongoing support of our business, community and government stakeholders here in the Territory – and of course, our people and their families.

## Our pathway to net zero

INPEX is actively focused on supporting the world's growing demand for reliable, affordable and clean energy. As mapped out in our INPEX Vision@2022, we are working hard to help reshape the Australian energy landscape by decarbonising our upstream operations and investing in renewables and the next generation clean fuels. Natural gas will continue to play a critical role in the global energy mix in 2050 and beyond. Importantly though, it will be decarbonised.

As we move towards net-zero emissions by 2050, the Territory remains a focal point for INPEX and will play a critical role in the company's decarbonisation strategy. We are aiming to introduce carbon capture and storage (or CCS) to Ichthys LNG in the late-2020s, and our multi-year appraisal program through the INPEX-led Bonaparte CCS joint venture is now underway, after extensive consultation and regulatory approval.

We are proud to be doing our part to help deliver Australia's net zero goals and support a carbon-neutral future. In a significant investment to advance our non-hydrocarbon business, INPEX is now a 50% owner of renewables company Enel Green Power Australia. This means INPEX is now firmly on the path to achieving gigawatt scale renewable energy power generation by 2030 – leveraging Australia's abundant solar and wind resources.

## We're listening

As a business, we value trusted relationships, so in 2023 we reached out to the Darwin community and local stakeholders to see how we were tracking. A community perception survey was led and implemented by independent consultants and achieved more than 200 digital survey responses and interviews with around 40 stakeholders from a range of sectors. Some key highlights from the survey included the majority of respondents agreeing or strongly agreeing that INPEX:

- has a strong presence in the community;
- contributes to the NT economy; and
- creates value for communities.

We would like to thank everyone who took the time to provide this valuable feedback which will help inform our business activities.

## Community investment

We are proud to contribute to the NT's vibrancy and economic resilience by working with local organisations to deliver vital programs and services in the areas of education, training, health and wellbeing. In 2023 highlights included the expansion of existing partnerships with Starlight Children's Foundation, Foodbank NT's School Breakfast Program, and Darwin Festival – as well as new investments to support Darwin Basketball Association, Stars Foundation and Anglicare NT's Safe Hangout for All Kids (SHAK) youth drop-in centre.

INPEX is part of the Darwin community. We will continue to support and engage with the communities we work alongside and live in, through our long-term partnerships. We are proud of our people's energy to make the Territory a great place to be – and together, we are contributing to a brighter future. Thank you for your ongoing support.

Kind regards,  
Bill Townsend

# Results from the Community Perception survey

Across a 12-week period in 2023, an independent consultancy firm, on behalf of INPEX, undertook 39 face-to-face interviews with government, peak industry associations, local businesses, and community stakeholders to gauge sentiment and overall awareness of INPEX and the INPEX Ichthys Project in the NT.

The survey campaign also generated 184 responses from the general public via a digital survey and 26 responses from individual businesses at a business networking event hosted by Chamber of Commerce NT.

Below are some of the key findings of the Community Perception survey across a range of stakeholder groups.

## Value Perception

56% of all respondents **Agree or Strongly Agree** that INPEX is a **trusted organisation**.

60% of all respondents **Agree or Strongly Agree** that INPEX **creates value for communities**.

53% of all respondents **Agree or Strongly Agree** that INPEX has a **strong presence in the community**.

69% of face-to-face respondents **Strongly Agree** that INPEX **contributes** to the **Northern Territory's economy**.

30% of all respondents **Disagree or Strongly Disagree** that INPEX **business information is readily available and accessible**.

## Accessible and transparent communication

Communicate with stakeholders to ensure a high-level of awareness and allow flexibility to effectively plan

**Opportunity:** Promote good news stories and share

## Social licence and community investment

Activities and contributions seen as a benchmark for the industry. High level of acceptance of social licence to operate.

**Opportunity:** Greater grass roots engagement – regional communities and youth sport, beneficial for the future pathways.

## Engagement with Aboriginal communities

Relationship with Larrakia People is considered excellent and a benchmark for the industry

**Opportunity:** Greater cultural training to be undertaken by INPEX staff when visiting country and engaging Elders

## Carbon Capture and Storage

Lack of awareness in community and industry

**Opportunity:** Education campaign focusing on CCS technology and LNG within the energy transition and the community

## Local employment

### Production Technician trainee career milestones

In early 2023, nine INPEX trainees celebrated an exciting career milestone as newly qualified Production Technicians.

The two-year traineeship program, delivered by Programmed Skilled Workforce, combines on-the-job and classroom-based training, during which participants gain a Certificate II and III in Process Plant Operations, as well as other important training including emergency response, high-risk licensing, first aid, and a suite of safety training courses.

Newly qualified Production Technician, Bruce Jarzyn, expressed his gratitude to the Larrakia Development Corporation (LDC) for providing an entry point to the energy industry and is looking forward to progressing his career with INPEX.

“LDC provided a pathway to my life-long goal, which I am proud to have achieved through my own hard work and commitment.”

“At the end of the day, it’s not about what I have accomplished, it’s about who I may have inspired. I hope my journey will encourage other Indigenous people to step out of their comfort zone like I did,” Bruce said.

Since 2015, 12 Aboriginal and Torres Strait Islander peoples have successfully completed their Production Technician traineeships, equating to 34% of INPEX’s overall trainee cohort of 35.

**“At the end of the day, it’s not about what I have accomplished, it’s about who I may have inspired. I hope my journey will encourage other Indigenous people to step out of their comfort zone like I did”**

— Bruce Jarzyn

### Ramingining opportunities expo

Following the success of the 2022 Ramingining careers expo, INPEX team members and contractors revisited the community for the 2023 event organised by Arnhem Land Progress Aboriginal Corporation. The purpose of the expo was twofold – to educate the community on health care and educate students on career opportunities.

Ichthys LNG Maintenance trainee Eliha Baker returned to his home community where he represented INPEX and shared stories of his success. Eliha gained employment at the Ichthys LNG Darwin facility after attending the 2022 Ramingining careers expo and chatting with Ichthys LNG Maintenance Supervisor, Derreck Gepp.

Jacob Anderson (Planner), Eliha Baker (trainee), Derreck Gepp (Maintenance Supervisor), Kenneth Pannell (Environmental Advisor)

Image at top of page: INPEX and Programmed teams celebrating the Production Technician trainee achievements at Aboriginal Bush Traders in Darwin

During the expo, INPEX team members discussed employment pathways with community members, shared virtual tours of the onshore and offshore facilities through VR headsets, and gifted AFL merch – donated by Gold Coast Suns – to students with the highest school attendance.

Year upon year, the event continues to grow with more employer stalls, government representation and community participation. INPEX is pleased to support the Ramingining careers expo, helping to empower generations and enhance the social and economic benefits of remote communities.

## Royal Flying Doctor Service

The Royal Flying Doctor Service (RFDS) provides urgent healthcare services to remote communities – services which are often taken for granted in metro areas.

INPEX proudly supports RFDS, backing its efforts to provide free community services including emergency evacuations from remote communities and cattle stations.

With a fleet of 80 aircraft across 23 bases throughout Australia, including one in Darwin and Alice Springs, RFDS responds to emergencies in the Territory every 20 minutes.

Health staff stationed on INPEX's two offshore Ichthys LNG production facilities, 240 kilometres off the coast from Broome, are supported by four RFDS members in Darwin and four in Western Australia.

“RFDS has provided essential primary healthcare services on our Ichthys LNG facilities, both onshore and offshore, for several years,” INPEX HSE Manager – Support, David Robotham said.

“Over the years, RFDS has expanded its services to encompass primary health care and preventative measures and, more recently, INPEX and RFDS have started to explore other initiatives to support the NT community,” David said.

We look forward to many more years of partnership with RFDS, supporting the mission of helping Australians live healthier and happier lives.

# Celebrating our people

## Our Women in Resources shine bright

The annual Women in Resources awards celebrates the success of women, gender diversity champions and those working to enhance diversity and inclusion across the NT's resource sector. At the 2023 event, INPEX was delighted to congratulate two team members who were recognised as finalists at the NT awards with one exceptional woman taking out the national award in Canberra.

### An outstanding win for Lindsay

Lindsay Gerrard, INPEX Operations Instrumentation and Electrical (Inlec) Technician, was named the winner of the INPEX Outstanding Tradeswoman/Operator category at the Women in Resources awards in Darwin. In late 2023, Lindsay was also recognised as the winner of the National Women in Resources awards. Lindsay's natural ability to lead, support others, and break new ground in her field resulted in her nomination for the award.

As a proud Gamilaroi woman, Lindsay has had an impressive career journey which has taken her from carpentry to electrical work, with a focus on instrumentation and control. Supporting the community is a high priority for Lindsay. From volunteering for the Girls Academy to mentoring children on the Tiwi Islands, her knowledge sharing helps younger generations build confidence and self-esteem.

Alongside her natural mentoring abilities, Lindsay's technical talent led to her promotion to a Work Execution Lead role in the 2022 Ichthys LNG maintenance shutdown making her the first female to hold such a position in the field.

INPEX Operations Technician Inlec Lindsay Gerrard accepts award from INPEX General Manager Onshore Dave Dann

### Exceptional recognition for Cordelia

A special mention to fellow nominee, Cordelia Mac INPEX Engineering Team Lead, who was recognised as an Exceptional Women in Resources award finalist. Cordelia's focus on developing her team, leading wellbeing initiatives,

and exploring different approaches to resolve problems, has a positive impact on all those who interact with her.

Cordelia is a role model to young women in the engineering field, and regularly supports after-hours events and activities. Her ability to problem-solve complex engineering solutions while managing high workload demands has earned Cordelia several nominations for 'Making a Difference' at INPEX's International Women's Day awards and many accolades from her colleagues.

INPEX Engineering team Lead Cordelia Mac accepts finalist award

## Group training NT awards

Dianna Lee: Trainee of the Year award runner-up

INPEX Corporate Affairs Advisor in Darwin, Dianna Lee, was announced as runner up in the 'Trainee of the Year' category at the Group Training NT (GTNT) awards.

In 2022 Dianna commenced a Certificate IV in Project Management with GTNT, with the training delivered by Charles Darwin University and a job position hosted by INPEX in our NT Corporate Office. Dianna's initiative, professional growth and development to date resulted in her nomination for the award.

On completion of the traineeship in March 2023 Dianna commenced a role with INPEX in the Corporate Affairs team and is currently supporting a range of community investment and educational activities in the NT.

# Our valued partners

## Foodbank in the NT – Christmas food drive

*INPEX team stocking up at Coles for the Foodbank SA & NT Christmas food drive*

Foodbank was founded with a vision to achieve zero hunger.

As the primary provider of food and grocery relief in the NT, Foodbank SA & NT relies solely on donations and the generosity of others to help feed those in need – both during times of crisis and consistently throughout the year.

The INPEX-led Ichthys Joint Venture has been a proud supporter of Foodbank SA & NT for a number of years and is pleased to continue to support the School Breakfast Program across the Territory into 2024.

Aiming to combat hunger and increase school attendance, the School Breakfast Program provides a free daily breakfast to students in participating schools, currently operating in around 40 schools across the Territory.

In December 2023, representatives from INPEX's Darwin team, as well as members from INPEX's offices in Perth, Norway and Japan, were very pleased to support the Foodbank SA & NT Christmas food drive. After hitting the local Coles and filling several trolleys to the brim, items were donated to Foodbank's warehouse in Berimah where they were distributed to those doing it tough at Christmas.

## Starlight Children's Foundation Express Room brightens days

In 2023, INPEX was delighted to continue its partnership with Starlight Children's Foundation to support the operation of the Starlight Express Room at Royal Darwin Hospital and expand support to now include the Healthier Futures Initiative (HFI) operating across the NT.

The Starlight Express Room is the only treatment-free space in the hospital for children and their families to access a range of facilities and recreational activities, socialise and enjoy time away from the stress of the wards during their stay in hospital.

The HFI, funded by the INPEX-led Ichthys Joint Venture, facilitates the presence of Captain Starlight at mobile health clinics (in remote NT communities) to promote attendance of children and their families during routine check-ups, helping kids feel less anxious about medical visits and making clinics a positive experience. In turn, this leads to improved appointment attendance, meaning more kids get their vital health checks and treatments for improved long-term health and wellbeing.

*Nellie having fun with a Captain in the Starlight Express Room*

## Partnering with Anglicare NT's SHAK youth hub in Darwin

Anglicare NT's Safe Hangout for All Kids (SHAK) youth hub, operating at Sanderson Middle School, offers a safe and supportive space for Darwin's young people to spend time outside of school hours. The SHAK provides access to activities, services and meaningful programs that support resilience, self-determination, and social and emotional wellbeing.

Operated by Australian Red Cross for 20 years, service delivery of the SHAK transitioned to Anglicare NT in collaboration with CAAPS Aboriginal Corporation in August 2023. The INPEX-led Ichthys Joint Venture has been a proud supporter of the SHAK youth hub since 2015.

"We are thrilled about the new partnership with INPEX. This enables us to expand activities offered at the SHAK and provide career pathways for Aboriginal and Torres Strait Islander young people," said Craig Kelly, CEO of Anglicare NT.

Specifically, by contributing to this program, we hope to increase the capacity of the SHAK to achieve the following:

- Provide employment and trainee pathways for local young Aboriginal and Torres Strait Islander peoples.
- Provide increased trauma-informed training and professional development opportunities for SHAK staff.
- Support increased delivery of Aboriginal and Torres Strait Islander cultural activities by local Aboriginal and Torres Strait Islander peoples and businesses.
- Provide additional activities for young Aboriginal and Torres Strait Islander peoples to improve health and wellbeing and increase engagement in education/training/skills development.

Kayllah Motlop (left) and Boab Murray-Atfield (right) at the SHAK

Stars Foundation participants

## Stars Foundation

On behalf of the INPEX-led Ichthys Joint Venture, we are pleased to highlight our new community partnership with Stars Foundation (Stars), which aims to support female Aboriginal and Torres Strait Islander students to remain in school and actively engaged in education to finish Year 12.

The program also supports students' successful transition into further study or employment. Central to the program's success are culturally sensitive and empowering mentors who create a safe environment for students to develop positive self-esteem and essential life skills and unlock their full potential during impressionable years, ultimately preparing them for a brighter future with sustainable career pathways.

In 2022, Stars provided invaluable support to more than 2,400 Aboriginal and Torres Strait Islander girls across 43 school programs in the Northern Territory, Western Australia, Queensland, Victoria and South Australia. Stars also actively supported their 2021 high school graduates and Stars Alumni cohort. In 2023, Stars worked with around 3,000 students across 52 schools.

Since the program launch in 2015, Stars students have achieved an impressive school attendance record. In 2022, their school attendance rate of 80 per cent, outperformed Indigenous students not participating in the program (68 per cent). Additionally, the Year 12 completion rate for their students stood at an exceptional 91 per cent, in contrast to the national Year 12 completion rate for Indigenous students, which was 65 per cent.

We are very proud to partner with an organisation that positively impacts the lives of Aboriginal and Torres Strait Islander girls and looks forward to fostering and strengthening this relationship for years to come.

**In 2023, Stars provided invaluable support to more than 3,200 students across all mainland states and the Northern Territory.**

## INPEX in the community: sport

### Tiwi Islands Grand Final showdown

The highly anticipated Tiwi Islands AFL Grand Final, between the Tuyu Buffaloes and Pumarali Thunder and Lightning, drew thousands of passionate supporters who were off their seats and cheering from the sidelines, including INPEX team members who made the trip from Darwin to Bathurst Island alongside representatives from long-term community partner, AFL Northern Territory.

In what turned out to be a nail-biting showdown, in the end the Tuyu Buffaloes narrowly won by 70-63!

INPEX has proudly partnered with AFL NT for more than a decade, most recently supporting capacity building of local clubs at a grassroots level with equipment and volunteer development as well as supporting the Michael Long Learning and Leadership Centre. Well done teams, we can't wait for next season!

Excited spectators cheering on the game

### Top End Gran Fondo success

Hundreds of cyclists once again hit the road in the annual Top End Gran Fondo. As proud event sponsors for the second consecutive year, INPEX was behind riders every pedal of the way as they tackled the journey through the Territory's Top End.

Each year, the Territory displays a true sense of community collaboration with anticipation and excitement filling the air in the lead up to the ride.

During 145, 110, 52 or 22-kilometre routes, cyclists persevere through dry season heat – while dodging the odd kangaroo along the way – to reach the finish line and enjoy live music, award presentations and well-deserved refuelling.

Well done to all our team INPEX riders including General Manager Onshore Operations, Dave Dann, alongside Cameron Lockley, Yuta Kato, Mark Cooper and Dominic Boyle, for successfully completing the challenge - no easy feat!

### Winners 'wheely' are grinners!

Friendly competition was in full force between INPEX teams during a recent game of wheelchair basketball. INPEX as proud supporter and member of the Darwin Basketball Association (DBA), was delighted to mark the milestone with a team-building exercise at the DBA centre.

Local basketball legends, Tom O'Neill Thorne and Clarence McCarthy Grogan, provided a coaching crash course to the teams before play commenced. Between a few air balls, double dribbles and successful steals, teams managed to shoot some hoops in a fun (yet challenging) game.

At INPEX, we strive to make a positive contribution to the Australian communities in which we operate. We are proud to be supporting the vibrancy of our local communities and look forward to watching Darwin's basketball teams on the court for many seasons to come. Go Salties!

Winning INPEX team (left to right) Delna Vaghaiwala, Yuko Tokunaga, Cameron Lockley, Charles Briston, Tom O'Neill Thorne, Dianna Lee, Sharon Sammut, Max Stretton, and Cara Burke

# Supporting education and training for Territorians

## AFLNT Michael Long Learning and Leadership Centre

The INPEX-led Ichthys Joint Venture has been a proud supporter of AFLNT's Michael Long Learning and Leadership Centre (MLLLC) since 2016. The MLLLC aims to support and empower young Aboriginal students through leadership and educational opportunities, encouraging school engagement and personal growth. The MLLLC programs are delivered to a vast number of communities across the Northern Territory.

The program incorporates educational, leadership and sporting (AFL) components that encompass health and wellbeing, literacy and numeracy, team building, creative arts and goal mapping. Schools are encouraged to select students for the MLLLC residential program based on pre-program participation, school attendance and positive attitude/behaviour within the school environment.

A highlight for the INPEX team has been the opportunity to participate as volunteers in the weekly awards sessions at the camps.

*INPEX General Manager Onshore Operations Dave Dann participating in a MLLLC award session*

*INPEX Graduate Mechanical Engineer Alwin Lal presenting at the CDU STEM expo*

## Charles Darwin University STEM expo

Charles Darwin University (CDU) has hosted the National Science Experience annually since 2006. One hundred year-9 students are given the opportunity annually to attend a three-day Science, Technology, Engineering and Maths (STEM) learning experience designed to inspire future STEM-related career pathways.

In 2023, INPEX was proud to sponsor the event for the first time, helping to bring students from remote communities to Darwin to attend the event.

INPEX Graduate Mechanical Engineer Alwin Lal attended the program and shared insights into the STEM-related career opportunities on offer at INPEX.

"I was amazed by the high level of engagement from these students during my talk. They not only asked great questions about my experience as a former student, but also what it's like to work at INPEX, and were genuinely interested in my day-to-day activities as an engineer.

"I'm confident that we have some upcoming bright young minds that will pave the path of the energy industry's future," Alwin said.

## Okawa-san honoured with Doctorate of Economics

INPEX Senior Vice President Oceania Projects, Hitoshi Okawa (former President Director INPEX Australia) was presented an Honorary Doctorate of Economics at a graduation ceremony hosted by Charles Darwin University (CDU).

The ceremony was presided over by CDU Chancellor, The Hon. Paul Henderson AO.

The Honorary Doctorate was awarded in recognition of Okawa-san's fundamental role in enabling the A\$ 60-billion INPEX-operated Ichthys LNG energy development and the vast economic and social benefits flowing to Australian communities as a result.

Okawa-san used his speech at the event to highlight the significance Ichthys LNG plays on a global scale, towards energy security and in building the bridges of strong bilateral relationships between Australia and Japan.

To the graduates, he emphasised anything is possible and not to let others convince you otherwise.

*The Hon. Paul Henderson AO (left) presents Okawa-san with an Honorary Doctorate of Economics*

## Supporting a brighter future for NT Youth

With the rise of new technologies, Science, Technology, Engineering and Maths (STEM) skills are becoming increasingly important in our everyday lives and job opportunities.

We're proud to support the Australian Resources & Energy Employer Association (AREEA) Bright Futures STEM Program in Darwin, aiming to inspire the next generation to pursue an interest in STEM subjects and careers in the energy industry.

In mid-2023, INPEX Corporate Coordination Officer Charles Briston and Electrical Engineer Vacation Student Hamza Kamran, travelled to seven schools across the Northern Territory to share their career journeys, advice, and lead STEM-based activities with more than 580 students collectively.

After a week of school visits, Charles earned himself a celebrity-like reputation amongst the young ones.

"I got home one day after the school visits and was met by one of the kids down the road who was shooting hoops in his driveway. He looked at me in disbelief and with so much excitement said 'you came to my school! That was awesome. I loved it. When are you coming back?'," Charles said.

Safe to say, a good time was had by all.

*INPEX Electrical Engineer Vacation Student Hamza Kamran presenting to a year 6 student cohort*

*The Hon. Selena Uibo providing a keynote address at our RAP launch in Darwin at the Parliament House*

## Reaffirming our commitment to reconciliation

One of INPEX’s key highlights in 2023 was the launch of its Stretch Reconciliation Action Plan (RAP) 2023-2025 – our third Stretch RAP and sixth RAP overall. Joined by special guests from government, industry, community partner organisations and employees, various celebratory launch events provided an opportunity to reflect on our RAP journey to date.

In Darwin, an event was hosted at the NT Parliament House where The Hon. Selena Uibo MLA, then NT Minister for Aboriginal Affairs spoke highly of INPEX’s approach to Reconciliation.

“INPEX has been a leader in utilising the RAP approach to mould relationships and positioning with First Nations peoples,” Minister Uibo said.

“Also crucial, are the Ichthys LNG environmental and greenhouse gas offsets programs in the NT. That includes implementation of the Savanna Fire Management Program, Aboriginal Ranger Grants Program and establishment of a Conservation Agreement Area. These programs create positive environmental, cultural and economic outcomes for Aboriginal and Torres Strait Islander communities.

“That is a deeply impressive, crystal clear and measurable list of targets.

“On the basis that past performance is a good measure of future success INPEX is now entering into a busy and rewarding three years,” Minister Uibo said.

In Perth, at the Epoch Café at Boola Bardip (WA Museum) The Hon. Dr Tony Buti MLA, Western Australian Minister for Aboriginal Affairs was also complimentary towards INPEX’s key commitments on employment, capacity building and environmental offset programs.

INPEX is proud of its RAP achievements to date yet recognises there is still more to do.

We’re excited to continue to build on our RAP deliverables and progress our vision for an Australia where Aboriginal and Torres Strait Islander peoples thrive through equitable participation in social and economic development.

To find out more about our RAP commitments, scan the QR code.

## Supporting industry and businesses

### 2023 Meet the Buyer

Members of the INPEX procurement, offshore and onshore buyer teams participated in the Energy Club NT's Meet the Buyer event in Darwin. The event provided 26 local suppliers the opportunity to connect with industry buyers, helping form new connections and business prospects, with an impressive 500 meetings hosted at the speed-networking event.

INPEX is proud to be the major sponsor of Meet the Buyer for the third year in a row. We place strong value on local capability and aim to continue to improve our working relationship with Territory businesses.

### Women in Resources – Changing the narrative

INPEX was proud to sponsor the Women in Resources 'Changing the Narrative' event in Darwin. Providing guests with an understanding of the social and economic value of the resources sector to the Territory's growth and success, presenters included former NT Deputy Chief Minister, Nicole Manison, registered psychologist and healthcare leadership coach, Michelle Taylor and Assure Program's Therese Cury.

The discussion focused on stories of success where the resources industry had influenced positive socio-economic change in local community and its generational effect.

Women in Resources lunch and learn

Practical advice was also delivered on empowering members to be resilient at times when faced with negativity about their work in the industry, both professionally and socially.

### NT Export Awards

The Northern Territory is a significant contributor to Australia's national trade and economy. INPEX was proud to support the 30th Chief Ministers NT Export Awards, acknowledging NT businesses for their excellence in exporting.

As sponsor for two award categories, INPEX Corporate and Property Supervisor Cameron Lockley, was delighted to present the Advanced Technologies Award and the Sustainability and Green Award to Spee3D.

"It was an honour to represent INPEX at the 2023 NT Chief Ministers Export Awards.

"It was an inspirational event showcasing innovation and technological initiatives from Territory businesses and their ability to thrive at an international level with exporting ventures," Cameron said.

Congratulations to all winners and nominees!

## Blak Business Awards

In August 2023, the second Blak Business Awards, hosted by Northern Territory Indigenous Business Network, took place at the picturesque Mindil Beach Resort and Casino Lawns in Darwin. The event celebrates Indigenous-owned businesses accomplishments across 14 award categories and provides network opportunities.

Over 375 Indigenous business owners, community leaders, sponsors, and government representatives attended the awards night. INPEX is proud to be a first-time Bronze Sponsor of this event. We congratulate all winners and nominees.

*INPEX Corporate Coordination Officer Charles Briston (left) and INPEX Category Principal Labour Gary Bell (right) represented INPEX at the Blak Business awards*

## Sharing the Harbour safely

INPEX is committed to sharing Darwin Harbour safely with all recreational and commercial users.

Up to three liquefied natural gas (LNG) export carriers and one liquefied petroleum gas (LPG) carrier are received each week at the Ichthys LNG onshore processing facilities at Bladin Point. In addition, up to one condensate carrier is received each fortnight.

The Regional Harbourmaster has declared a marine safety zone restricting access around Bladin Point, including the product loading jetty, to ensure the safety of everyone on the water.

All Harbour users are encouraged to observe the Harbourmaster's marine safety zone, available at Marine safety – <https://nt.gov.au/marine/marine-safety>
